

Park River Estates

Resident Council Foundation

The Resident Council Foundation is a 501 (c) (3) organization. We were established in 1997, with the mission to enhance the quality of life of the residents of Park River Estates Care Center.

Our Board includes caregivers and members of the community who are passionate about our mission and believe in its purpose. With backgrounds in senior care, we understand the challenges of our aging population, especially those who need 24-hour care.

The loss of their independence can lead to:

- *Feeling Isolated from the Outside Community
- *Losing Interest in Activities & Leisure
- *Feeling Abandoned by Family & Friends
- *Feeling Lonely & Depressed

We believe that seniors in skilled nursing communities can continue to live their lives with joy and purpose. We know that fostering a warm and supportive community that provides engaging and meaningful activity programs allows them to thrive and greatly enhances their quality of life.

To fulfill our mission, we support the activity program of Park River Estates Care Center by purchasing:

- *Monthly Live Music & Entertainment
- *Educational Programs & Guest Speakers
- *Pet & Animal Therapy Programs
- *Resident Activity & Leisure Supplies

With the support from donors and the community, we have enhanced the quality of life of thousands of residents. We are thankful for the Foundation's longevity and look forward to continuing our charitable work for our current and future residents.
